Dear Colleagues

It is with great pleasure that we, the Organizing Committee, invite you to join the 3rd Global Convention on Noise Pollution and Health on 11th and 12th December 2021 (Saturday & Sunday) as an Hybrid Meet.

The Conference is organized by National Initiative For Safe Sound, an initiative of Indian Medical Association (IMA) with AOI, IAOHNS, AWAAS Foundation and The International Journal of Noise & Health.

As a continuation of the legacy of our last 2 Global Conventions, we will be hosting a session on “Audiology and Deafness and Update” this year as well. We sincerely believe that this session will be really beneficial for Medical Practitioners and Audiology Professionals.

As part of our mission to expand the horizon of knowledge, we have an array of National and International Faculty, sharing their expertise with the delegates. Apart from Medical and Audiology Professionals, the Conference is open to Environmentalists, NGOs and public. Registration is free but compulsory. We are sure that this conference will explore new avenues of thought and highlight the serious and detrimental health issues caused by Noise to the international community.

Best Regards

Organizing Team
